WHO WE ARE

We are an international investment fund **UNICAP GLOBAL** which implements large-scale infrastructure social projects based on the principles of PPP, PFI, ESG.

KEY EXPERIENCE

Thanks to joint work with investment companies **Clayton, Dubilier & Rice, Centerbridge Partners, Advent International, BDT Capital Partners** the **Culligan Eurasia** project was implemented as a structural unit of **Culligan International**, where we were able to provide the highest level water quality for millions of people in more than 20 regions.

WHAT WE OFFER

This experience allowed us to move on to a larger project - **VODPROM**. **We offer partnership in the implementation of social and infrastructure projects in the field of municipal water treatment at the expense of our own investments.**

MISSION

One of the main missions of the project is to create a new effective model of relations between **the society - states - corporations**.

ADVANTAGES OF PARTNERSHIP

UNICAP covers the lack of budgetary public funds at the expense of its own investments;

UNICAP assumes all risks of the design, construction and operational stages of the construction of facilities;

UNICAP provides an opportunity for continuous monitoring, control and management of municipal infrastructure objects online remotely;

UNICAP prevents the possibility of fraud and corruption;

UNICAP allows you to move from direct public administration to public management;

UNICAP provides the possibility of separating the functions of the state as an owner and as a regulator.
